Cyber Bug-B Gains FAA Certification

Cyber Defense Systems Inc, a technology partner of V-TOL Aerospace, has been issued a Special Airworthiness Certificate (Experimental UAV) by the FAA for the BUG-B variant.

Managing Director of V-TOL Aerospace Mark Xavier said, “the FAA Certification of this “best of class” mini-UAV brings it closer to commercial acceptance in our airspace. V-TOL looks forward to supplying, supporting and operating, on a routine basis, this unique UAV system for commercial applications in Australia and Oceania”.

V-TOL Aerospace Pty Limited is the exclusive CDS Agent for Cyber Defense System products & services in Australia, NZ and Oceania.
